

Cable Flag ID

Description

Flag ties are essentially the same as cable ties, but with the added benefit of a flat surface on the end for the purpose of labeling. Simply installed and available in multiple colors and nylon formats, flag ties are an excellent wire management product for applications.

Construction

Nylon 6.6

Various Styles: horizontal, vertical or end placed flag single ties or wraps

Temperature Rating

-40°C to 85°C

Application

Sycor's standard nylon flag cable ties (or wraps) are very useful for bundling wires where identification is crucial. The flag allows for customized organization and identification via printing or labeling of wires or bundles.

Approvals

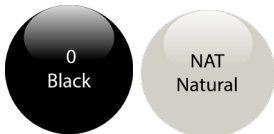

CSA certified

UL recognized'

UL94-V2 flame rating

Color Codes

*Other colors available upon request
