

# Re-sealable Zipper Wrap Tubing

## Description

Sycor's zipper tubing is an economical wrap around cable management product that's easy to handle and install, because of its re-attachable ability. As its name implies, a zipper runs alongside the tubing and allows for it to be completely opened up. This makes it incredibly quick and easy to add or remove internal components to or from the tubing. Zipper tubing offers protection and guidance for your wire and cable bundles. It is also available in numerous sizes and materials, including PVC, polyurethane, and zero-halogen options.

## Construction

Polyvinyl Chloride non-shrinkable tubing

\*May Vary depending on tubing type.

\*Reference chart for more details.

## Approvals

UL224, VW-1

## Application

Sycor's flexible rubber zipper tubing is designed for general purpose tubing applications as it's easy to uninstall and re-install in different settings. The zipper tubing comes in either flat, rectangle, and round tubing options, which are strong solutions for both wire harness fabrication, as well as outdoor retrofit situations. These tubing options additionally can be replaced without needing to remove any cabling connections currently in place, as each non-shrinkable zipper tube is easily removable.

## Temperature Rating

Varies by material

## Voltage Rating

600/700 Volts

## Sycor's Zipper Tubing options

	Shape of Installation	Temp. Ratings	Unit Length	Exterior Material	Closure	Material Color	Cable Dia. Options
